MEN'S HEAVY PARKA

DESCRIPTION :

In a lot of ways, the parka is the ultimate winter jacket/coat. Our parka is a long-bodied type of jacket, generally with insulation and a fur-lined hood. It's a winter jacket and borderline coat due to its length. Any materials can be used, but usually, you see thick, robust, and oftentimes weatherproof materials.

Finally, the long shape helps insulate the whole body, gives it a more statement style, and prevents rain from soaking your bottom half (if waterproof). The parka really can do it all.
